WARNING

Using Fork Extensions greatly reduces the forklifts capacity.

Always make sure your load is pushed up against the carriage and backrest of the forklift.

Never lift with the extensions tips. It will bend them.

Installing and removing Forklift Extensions creates multiple pinch points. Keep hands, feet and all other body parts clear at all times.

Always make sure the Extensions are firmly seated against the heel of the forks.

Never use on Reach Style Forklifts.

Never hang anything from the Forks or Extensions; a Forklift is not a Crain.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. If there is any doubt as to the operation or safety of the equipment,
